

JUDGE A. POOL, BENEDICT, BACK

Returns to El Paso With Bride and a Lot of Good Road Enthusiasm.

Back from a month's honeymoon, in which he did not neglect his favorite hobby, good roads, Judge A. Pool, formerly judge of the county court, returned with his bride to El Paso Wednesday night. They are temporarily at the Hotel Sheldon until they select a home.

Mrs. Pool, before her marriage, was Miss Inez Singleton, of Waxahachie. After their marriage they took an extended trip through the east and then returned to Texas, where they visited Waxahachie. Judge Pool also dropped in at some of the towns on the proposed new El Paso-Fort Worth auto highway, which he has brought to the point of an assured success.

"I found that interest in the new road is increasing in every county and every city through which the highway will pass," said Judge Pool. "A meeting has been called at the El Paso-Fort Worth midway on the 15th of this month, at which delegates from the towns and counties affected by the highway will meet to perfect an organization and to urge each county to make the section of the highway through its territory. The raising of funds also will be considered and resolutions passed that when a state highway commission is created, the El Paso-Fort Worth road be established as a state highway."

The Texas Good Roads association will meet the 17th and 18th of this month at Austin for the purpose of urging legislation establishing a state highway commission. This measure is believed sure of success.

Today's Daintiest Dish

By CONSTANCE CLARKE.

Broiled Mutton Chops.

TAKE six loin mutton chops, remove a portion of the fat and trim them into a nice shape; slightly beat and level them; rub the tops of the chops with a little fat and lay on the chops. Frequently turn them, and in about eight minutes they will be done. Season with pepper and salt, dish them on a very hot dish, rub a small piece of butter on each chop and serve very hot. Garnish with canned green peas and boiled carrots.

Wash the peas in water and boil the carrots as follows: Place one bunch of carrots in boiling water for five minutes, wash and rub off the skin with a cloth, cut off the green heads and the points and cut in slices. Place them in a saucepan, add half a cup of water, one tablespoonful of butter, a pinch of salt and a teaspoonful of sugar; cover the saucepan and stew slowly for 20 minutes, shaking the saucepan every five minutes to insure their cooking evenly. If done enough they will feel soft and give way under the finger.—(Tomorrow, Boiled Ham.)

CARPENTERS ASK FOR \$1 INCREASE IN DAILY PAY

By an unanimous vote, the proposition of asking the contractors of the city for an increase of \$1 from \$3 per day, was passed at the annual meeting of the Central labor hall, Kansas, and Overland streets. It was pointed out that the carpenters have not had an increase in the scale of pay since 1912, and as the high cost of living had increased accordingly, the additional \$1 to their daily wage was asked. A committee composed of H. E. Hill, J. W. Vance and H. F. Brown canvassed the leading

contractors of the city Wednesday and reported that they greeted the proposition with favor.

An evening of amusement was enjoyed by the members after the business was completed, an elaborate banquet having been arranged.

FIGHT FOR STATE NORMAL HERE IS BEING LAUNCHED

With the date of the opening of the state legislature rapidly approaching, strenuous efforts are being made by the school authorities and others interested, to bring about a decision of the legislature to have a state normal school placed somewhere in El Paso county.

The legislature, during this session, will set aside an appropriation for a new normal school, and it is pointed out that El Paso county is the place for it. Attempts have before been made to get a normal school in this county, for there is none located within 60 miles of this city.

No particular site of location has been decided upon for the school should it be decided to have it located in this county, but citizens in Yalpa have promised a site for the school if its location there would prove desirable.
